

Cricket Craze

For most of us Cricket is more than just a game... It's a way of life...

For most of us Cricket is "Be fit, Be Alert and Be Sachin"

For most of us Happiness is playing Cricket with friends...

While we sit back in a couch and comment on the Bowler's line and Batsman's footwork... It's time to take a step further...

Did you know that Ajit Agarkar is just 5 wickets behind Shane Warne in ODI wickets and he has played 3 matches lesser than Shane Warne!

99.37% of people who have ever played the Gentleman's Game haven't even scored half as many runs as HIM (You Know Who)!

If you think that you have it in you to come up with such interesting stats... This problem is for you...

What do we have for you?

Ball by Ball data from all the ODI matches since World Cup 2011.

!

What do we need from you?

- *Best ODI XI (With No more than 3 players from a Single Country)*
- *Best Indian XI for the next World Cup*
- *A Heads up on the 2015 World Cup Venues - What's in store for the visiting teams*
- *Any interesting insights that would make a Statistician proud ... ☺*

?

By the way... This is a Data Competition, Hence Data must speak...not your Intuition!!

Keep your Personal likes and dislikes aside and Show us what the Data says!!!
